

STN[®] Patent Databases

April 2014

STN PATENT DATABASES

The following table is a list of patent databases on STN listed by country coverage and database, and including content highlights:

- Worldwide
- Asia
- Australia
- Canada
- Europe
- Russia
- United States

STN DATABASE – WORLDWIDE	CONTENT HIGHLIGHTS
BIOTECHABS Derwent Biotechnology Resource Non-Subscriber	<ul style="list-style-type: none"> • Worldwide literature on all aspects of biotechnology with about 30% of the database citing patent publications
CAPLUS SM Chemical Abstracts Plus	<ul style="list-style-type: none"> • Patents and patent families from over 63 patent authorities, including cited references for patent basics from USPTO, EPO, WIPO, and GPO added from 1999 to date
CASREACT [®] Chemical Abstracts Reaction Search Service	<ul style="list-style-type: none"> • A chemical reaction database with reaction information derived from journal and patent documents from 1840 to date
CROPU Derwent Crop Protection File	<ul style="list-style-type: none"> • All aspects of pesticides, including data from patents from 1996 to date
DGENE GENESEQ	<ul style="list-style-type: none"> • Nucleic and peptide sequences extracted from basic patent documents of the 41 patent-issuing authorities covered by the Derwent World Patents Index
DPCI Derwent Patents Citation Index	<ul style="list-style-type: none"> • Examiner citations, both patent and literature, appearing in patents from 10 major patent offices • Examiner and Author citations for 16 patent offices from mid-1994 to May 1997
ENCOMPAT EnCompass Patent File for Supporters	<ul style="list-style-type: none"> • Citations to patents relating to the petroleum and petrochemical industries

<p>IMSPATENTS IMS LifeCycle, Patent Focus</p>	<ul style="list-style-type: none"> • Patent family data for commercially significant drugs • Information collected by the IMS network of offices and published in Patents International
<p>INPADOCDB International Patent Documentation Database</p>	<ul style="list-style-type: none"> • Bibliographic and family data of patent documents and utility models of 90 patent-issuing organizations • The legal status data of 59 patent issuing organizations
<p>MARPAT® CAS Markush Search Service</p>	<ul style="list-style-type: none"> • Markush structure records for patents found in CAplus with patent publication year 1988 to the present • English language patents from 1984-1987 (selective coverage) • French, and German patents from 1986-1987 (selective coverage) • Japanese patents from 1987 (selective coverage) • Korean patents from 2008 to the present • Russian patents published after January 10, 2000 • Markush structures derived from Institute National de la Propriete Industrielle (INPI) data from 1961 to 1987 • Markush structures found in the claims and often the disclosure of the patent
<p>PCTFULL WIPO/PCT Patents Full Text</p>	<ul style="list-style-type: none"> • Full text of Patent Cooperation Treaty (PCT) published applications issued under the auspices of WIPO since 1978
<p>PCTGEN World Patent Application Biosequences</p>	<ul style="list-style-type: none"> • Nucleotide and amino acid sequence information submitted electronically to WIPO by patent applicants • Actual sequence and additional information on the sequence, e.g., molecule type, organism, and patent information
<p>PIRA PIRA and PAPERBASE</p>	<ul style="list-style-type: none"> • Bibliographic database that contains information from patents and other sources on business and technological developments in packaging, printing, publishing, pulp, paper, imaging, and nonwovens industries
<p>PS Pharmaceutical Substances</p>	<ul style="list-style-type: none"> • Essential substance information, trade data, and preparation methods, including from patents, for active pharmaceutical ingredients currently on the market and launched from 1957 to the present
<p>RAPRA RAPRA</p>	<ul style="list-style-type: none"> • Bibliographic and directory database covering patent documents relevant to the rubber and plastics industries and published since 1974 by the EPO, USPTO, and WIPO
<p>TULSA/TULSA2 Petroleum Abstracts</p>	<ul style="list-style-type: none"> • Bibliographic citations to literature, including information from patents, on the oil and gas exploration industry
<p>WPIDS Derwent World Patents Index Subscribers</p>	<ul style="list-style-type: none"> • Information on patent publications from the 50 most important patent-issuing authorities of the world • Descriptions of patent families, starting with the new invention and adding information about the same invention issued in other countries

WPINDEX Derwent World Patents Index Non-Subscribers	<ul style="list-style-type: none"> Information on patent publications from 50 patent-issuing authorities Descriptions of patent families, starting with the new invention and adding information about the same invention issued in other countries
WPIX Derwent World Patents Index Subscribers with Extension Abstracts	<ul style="list-style-type: none"> Information on patent publications from 50 patent-issuing authorities Descriptions of patent families, starting with the new invention and adding information about the same invention issued in other countries

STN DATABASE – ASIA	CONTENT HIGHLIGHTS
CNFULL China Patents Full Text	<ul style="list-style-type: none"> Full text of patent applications, granted patents, and utilities models published in People’s Republic of China from 1985 to the present
INFULL Indian Patents Full Text	<ul style="list-style-type: none"> Full text of patent applications and granted patents in India from publication year 1912 onwards
JAPIO Japan Patent Information Organization	<ul style="list-style-type: none"> The most comprehensive English-language access to Japanese unexamined patent applications in all technologies
JPFULL Japan Patents Full Text	<ul style="list-style-type: none"> Full text of patent applications, granted patents and utilities models published in Japan from 1984 onwards
KOREAPAT Korean Patent Abstracts	<ul style="list-style-type: none"> Korean patent information in English language

STN DATABASE – AUSTRALIA	CONTENT HIGHLIGHTS
AUPATFULL Australia Patents Full Text	<ul style="list-style-type: none"> Full text of patent applications and patent specifications published in Australia from 1964 to the present

STN DATABASE – CANADA	CONTENT HIGHLIGHTS
CANPATFULL Canadian Patents Full Text	<ul style="list-style-type: none"> Full text of patent applications and patent specifications published in Canada from 1906 to the present

STN DATABASE – EUROPE	CONTENT HIGHLIGHTS
DEFULL German Patents Full Text	<ul style="list-style-type: none"> • Full text of patent applications and granted patents from application publication year 1877 onwards
EPFULL European Patents Fulltext	<ul style="list-style-type: none"> • Complete text of applications and granted patents published by EPO
FRANCEPAT FrancePat	<ul style="list-style-type: none"> • All French patent applications and granted French patents published by the Institut National de la Propriete Industrielle (INPI) since 1966 • Special pharmaceutical patents (Brevets Speciaux Medicaments) published between 1961 and 1978 are included • Complimentary Protection Certificates from 1969 to the present
FRFULL French Patents Full Text	<ul style="list-style-type: none"> • Full text of all patent applications published in France
GBFULL United Kingdom (GB) Patents Full Text	<ul style="list-style-type: none"> • Full text of all patent applications published in the United Kingdom
PATDD PATDD	<ul style="list-style-type: none"> • All patent-relevant areas of science and technology • Patent publications according to the patent law of the GDR from 1981-10/2/90 and the German Patent Office from 10/3/90-11/9/99
PATDPA German Patent Database	<ul style="list-style-type: none"> • Bibliographic data and legal status of patent documents published by GPO • Patent documents of EPO and WIPO designed for Germany
PATDPAFULL German Patents Full Text	<ul style="list-style-type: none"> • All areas of patentable technology • Full text of German published patent applications from 1997 to date

STN DATABASE – RUSSIA	CONTENT HIGHLIGHTS
RUSSIAPAT	<ul style="list-style-type: none"> • Russian patents from 1924

STN DATABASE – UNITED STATES	CONTENT HIGHLIGHTS
IFIALL IFI Patent Database	<ul style="list-style-type: none"> • U.S. utility patents, reissue patents, defensive publications, expired patents, reinstated patents and patents with adverse decision in interface • Chemical and chemically-related patents from 1950 to date
LITALERT LitAlert	<ul style="list-style-type: none"> • Patent and trademark infringement lawsuits filed in the ninety-four U.S. District Courts, and reported to the Commissioner of the United States Patent and Trademark Office (USPTO) • Lawsuits filed since the early 1970s that have never been reported in the Official Gazette
RDISCLOSURE Research Disclosure	<ul style="list-style-type: none"> • Full text, including images, of technical disclosures
USGENE® USPTO Genetic Sequence Database	<ul style="list-style-type: none"> • All available peptide and nucleic acid sequences from the published applications and issued patents of the USPTO dating back to 1982
USPAT2 U.S. Patents Latest Publications	<ul style="list-style-type: none"> • full text and classifications for the latest publications of U.S. patents and applications issued by the USPTO since 2001 to date
USPATFULL U.S. Patents Original Publications	<ul style="list-style-type: none"> • Full text and current classifications for the original publication of patents issued by the USPTO from 1975 to date • Granted utility patents, defensive publications, design patents, reissue patents, statutory invention registrations, and plant patents • U.S. applications published since 2001 to date
USPATOLD U.S. Patents in all areas of technology	<ul style="list-style-type: none"> • Full text and classifications for the publication of the U.S. patents issued by the United States Patent and Trademark Office (USPTO) • U.S. patents in all areas of technology 1790-1975
